
THE REGULATORY BLUEPRINT: KBLI 96121

A Strategic Guide to Establishing a Massage Parlour in Indonesia

Based on Regulation PP 28/2025 | KBLI 2025 Framework

The Opportunity at a Glance:
Key Regulatory Parameters for KBLI 96121

Business Scope

Business Activity

Provision of professional massage services, including Traditional Indonesian, Reflexology, Shiatsu, Tuina, and Thai.

Risk Profile

Official Risk Level

Medium

This indicates standard licensing and reporting requirements.

Foreign Investment

Foreign Ownership (PMA)

100% Permitted

Full foreign ownership is allowed with no maximum cap.

Business Scale

Permitted Scale

Micro, Small, Medium, and Large

Flexible for all enterprise sizes.

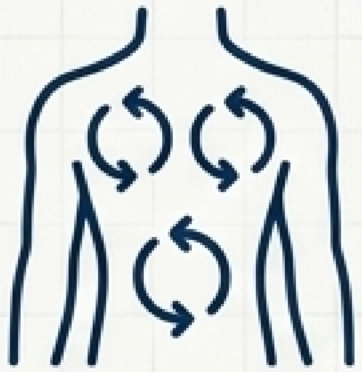
What is the Official Scope of a 'Massage Parlour' (Rumah Pijat)?

KBLI 96121 covers ventures providing facilities and services for specific massage modalities. The regulation emphasizes a professional environment focused on client well-being.

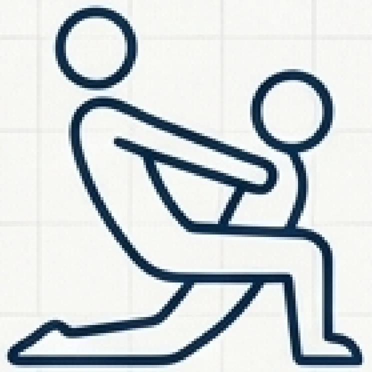
Traditional Indonesian Massage: Holistic techniques focused on full-body wellness.

Reflexology: Pressure-point application on feet, hands, and ears.

Shiatsu: Japanese finger-pressure therapy along energy meridians.



Tuina: Chinese therapeutic massage using kneading and pushing.



Thai Massage: Assisted yoga postures and acupressure techniques.

Mandatory Environmental Standards

The business must uphold comfort, safety, and benefit for clients, adhere to professional ethics, and may provide food and beverages.

Understanding the 'Medium Risk' Designation

RISK LEVEL:

MEDIUM

Under Government Regulation PP 28/2025, KBLI 96121 is classified as a **'Medium Risk' business.**

What this means in practice: This classification typically requires a standard business license (NIB - Nomor Induk Berusaha) and the fulfillment of specific certifications or standards before operations can begin.

It signifies a manageable regulatory pathway, more straightforward than 'High Risk' sectors but with more oversight than 'Low Risk' activities.

Are Foreign Investors (PMA) Permitted?

100%

Yes. Full Foreign Ownership is Authorized.

The regulatory framework for KBLI 96121 explicitly allows for Foreign Direct Investment (Penanaman Modal Asing - PMA).

Maximum Cap

There is no equity cap; foreign entities can own up to 100% of the business. This provides maximum control and flexibility for international operators.

What Business Scales Are Permitted Under This KBLI?

The regulation is designed to accommodate a full spectrum of business sizes. Entrepreneurs and investors can structure their operations as:

Micro (Mikro)

Ideal for small, owner-operated establishments.

Small (Kecil)

Suitable for growing businesses with a small team.

Medium (Menengah)

For established parlours with significant operations.

Large (Besar)

Designed for large-scale chains or franchise operations.

This flexibility allows for scalable growth, from a single-location startup to a national enterprise, all under the same regulatory code.

What Are the Core Post-Licensing Obligations?

The primary ongoing compliance requirement for businesses under KBLI 96121 is focused on transparent reporting.

Requirement:
Menyampaikan laporan kegiatan secara berkala

Translation & Elaboration:
Businesses are obligated to **submit periodic activity reports** to the relevant authorities. The frequency and format of these reports are typically detailed during the licensing process.

> This requirement ensures operational transparency and adherence to the standards set forth in the business license.

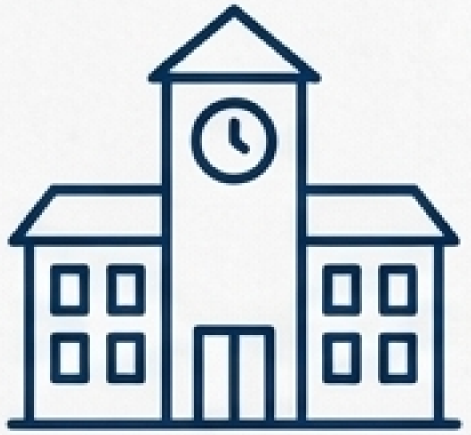
Who is the Licensing Authority?

For Foreign Investment (PMA)

Minister / Head of Agency (Menteri/Kepala Badan)

Applications involving any level of foreign ownership are processed and approved at the central government level.

For All Investment Types



Regent / Mayor (Bupati/Walikota)

Local government retains authority and is involved in the licensing process for all businesses, ensuring compliance with regional regulations.

Navigating both central and local government channels is key. PMA applications begin at the national level, with coordination at the municipal level.

Your Pre-Launch Regulatory Checklist

Before proceeding, confirm your business plan aligns with these core regulatory pillars for KBLI 96121.

- ☐ **Scope Confirmation:** Does your service offering fall exclusively within the defined activities (Traditional, Reflexology, Shiatsu, etc.)?
- ☐ **Risk Preparedness:** Are you prepared to meet the standard certification and licensing requirements for a "Medium Risk" business?
- ☐ **Ownership Structure:** Have you finalized your investment structure (Domestic or 100% PMA)?
- ☐ **Scale Definition:** Have you defined your initial business scale (Micro, Small, Medium, or Large)?
- ☐ **Compliance System:** Do you have a process in place for periodic activity reporting post-launch?
- ☐ **Authority Strategy:** Have you identified the correct licensing authority (Central for PMA, Local for all) for your application?

With these elements in place, your blueprint for a compliant and successful venture is complete.
