Financial Compliance

Indonesian tax law is complex — and the wrong structure can cost more than the tax itself. Our certified advisors ensure your PT PMA, KITAS, and personal obligations are met, with zero surprises.

Personal Tax

If you hold a KITAS (working, investor, freelance), you are a tax resident and must file an annual SPT. We handle registration, filing, and NPWP issuance.

Corporate Tax

PT PMA companies must file monthly VAT (PPN), income tax (PPh 21/25), and annual reports. We act as your local tax representative.
