Who We Are

Bali's first AI-powered business & immigration platform

Bali Zero was founded as a traditional consulting firm — lawyers, immigration specialists, and tax advisors based in Canggu. Over the past decade, we evolved into something different: a hybrid human+AI system where specialized agents handle deterministic work (price lookups, document checklists, deadline tracking, legal database searches) so our human experts can focus entirely on judgment, relationships, and complex problem-solving.

The vast majority of our processes run on rules, not memory — which means you get consistent, reliable answers whether you reach us on a Monday morning or a Friday afternoon. No guesses. No outdated information. No hallucinated prices.

Our Commitment

Every regulation verified. Every decision reviewed by a human. Payments only through official bank transfers. Your documents never leave our secure client portal.

We have been asked many times what separates us from the dozens of visa agents operating on the island. The answer is simple: we are the only firm in Bali where the AI cannot invent a price, and every answer is grounded in a cited Indonesian government source.

Immigration Services

From tourist visa to permanent residency — we handle the full journey

Visa-on-Arrival & Short-Stay

VOA (30 days), B211A Social/Cultural (60 days extendable to 180 days), B211B Investor Visit. We handle extensions and conversions.

KITAS — Limited Stay Permits

KITAS Employment (sponsored by your PT PMA), KITAS Investor, KITAS Retirement (Lansia), Digital Nomad KITAS. We select the correct category for your exact situation — a wrong KITAS type leads to detention and two-year blacklisting.

KITAP — Permanent Stay

After 5 consecutive years of valid KITAS, you qualify for KITAP. We track your eligibility date and initiate the process automatically.

PROCESSING	2–5 weeks
VALIDITY	1–2 years

KITAP	4–6 weeks	5 yrs KITAS	IDR 12M

Business Setup

PT PMA, CV, Yayasan — the right structure for your goals

The wrong business structure in Indonesia is not just inconvenient — it can freeze your bank accounts, invalidate your licenses, or expose you to personal liability. We match your activity to the correct structure before we file anything.

PT PMA (Foreign-Owned)

- 100% foreign ownership
- Requires IDR 10B capital
- Full operational rights

CV (Local Partnership)

- Lower capital requirements
- Requires Indonesian partner
- Suitable for small operations

Yayasan (Foundation)

- Non-profit structure
- Educational / social activities
- No shareholder profits

Representative Office

- No commercial activity
- Market research & liaison
- Bridge to full PT PMA

PT PMA Setup — What We Handle

Step	What We Do	Timeline
01	KBLI selection + business plan review	Day 1–2
02	NIB registration (OSS-RBA system)	Day 3–5
03	Notarial deed + Ministry of Law approval	Week 2
04	NPWP + DJP tax registration	Week 3
05	Bank account + operational permits	Week 4–6

All KBLI codes verified against the 2025 KBLI classification database. Wrong KBLI selection is the #1 cause of PT PMA license rejection.

Tax & Compliance

Indonesia's tax regime — end-to-end management

Monthly Obligations

PPH 21 (employee income tax), PPh 23 (withholding on services), PPN (VAT, 12% from Jan 2025) — due by the 15th or end of each month.

Annual Obligations

PPh Badan (corporate income tax, 22%), SPT Tahunan (annual tax return, due end of March), transfer pricing documentation for related-party transactions.

LKPM Reporting

Quarterly investment activity reports to BKPM. Missing a LKPM filing triggers automatic PT PMA suspension — the fine exceeds a full year of our compliance service fee.

PPN RATE	12% (Jan 2025)
PPH BADAN	22% standard
PPH 21	5–35% prog.
LKPM	Quarterly
SPT DUE	End of March

Compliance Calendar — Key Deadlines

Obligation	Frequency	Deadline	Penalty for Late
PPh 21	Monthly	15th	2% per month
PPN	Monthly	End of month	2% per month
LKPM	Quarterly	End of Q	PT PMA suspension
SPT Tahunan	Annual	End of March	IDR 1M flat
PPh Badan	Annual	End of April	2% per month

How We Work

Deterministic AI with human guardrails

Zantara, our AI assistant, is built on a knowledge graph of 56,000+ verified regulatory nodes and 93,000+ sourced documents. Think of it as the difference between a calculator and a mathematician: the AI handles computation, the humans handle judgment.

- 1 You Ask**
Via WhatsApp, Telegram, Web Chat — in your language
- 2 RAG Retrieval**
Hybrid search across 93,000+ verified documents and regulations
- 3 Evidence Scoring**
Each answer scored 0–1 against source confidence thresholds
- 4 Guardrail Check**
Low-confidence answers escalated to human specialists immediately
- 5 Verified Response**
Cited answer delivered — source document referenced, never invented

What Our AI Does vs. What Humans Do

Deterministic System (AI)	Human Intelligence (Advisors)
Prices from verified database	Strategy and judgment
Deadlines from legal calendar	Client relationships
Docs from official registries	Complex negotiations
Status tracking & alerts	Problem solving & advocacy

● Never invents a price

● Regulation-grounded

● Human escalation path

Evidence threshold: 0.60. Scores below 0.15 → system refuses to answer. Scores 0.15–0.60 → cautious answer with explicit uncertainty disclaimer. Above 0.60 → confident cited answer.
