What Defines a “Pondok Wisata”?

The official KBLI 55130 classification defines a “Pondok Wisata” as a business providing daily lodging for the public. It must meet these specific criteria:

- Operated by an individual using their own private residence.

- The owner must reside in the same building.

- A portion of the home is rented to guests.

- It offers guests the unique opportunity to interact with and experience the owner's daily life.

The Investment Framework at a Glance

Risk Level: LOW

Classified as a low-risk venture, simplifying the compliance and licensing process.

Foreign Ownership: 100% ALLOWED

Fully open for Foreign Direct Investment (PMA) with no equity cap.

Business Scale: ALL SIZES

Permitted for Micro, Small, Medium, and Large scale operations.

Sector: TOURISM

Officially categorized within Indonesia's strategic tourism sector.

Full Foreign Ownership is Sanctioned and Encouraged

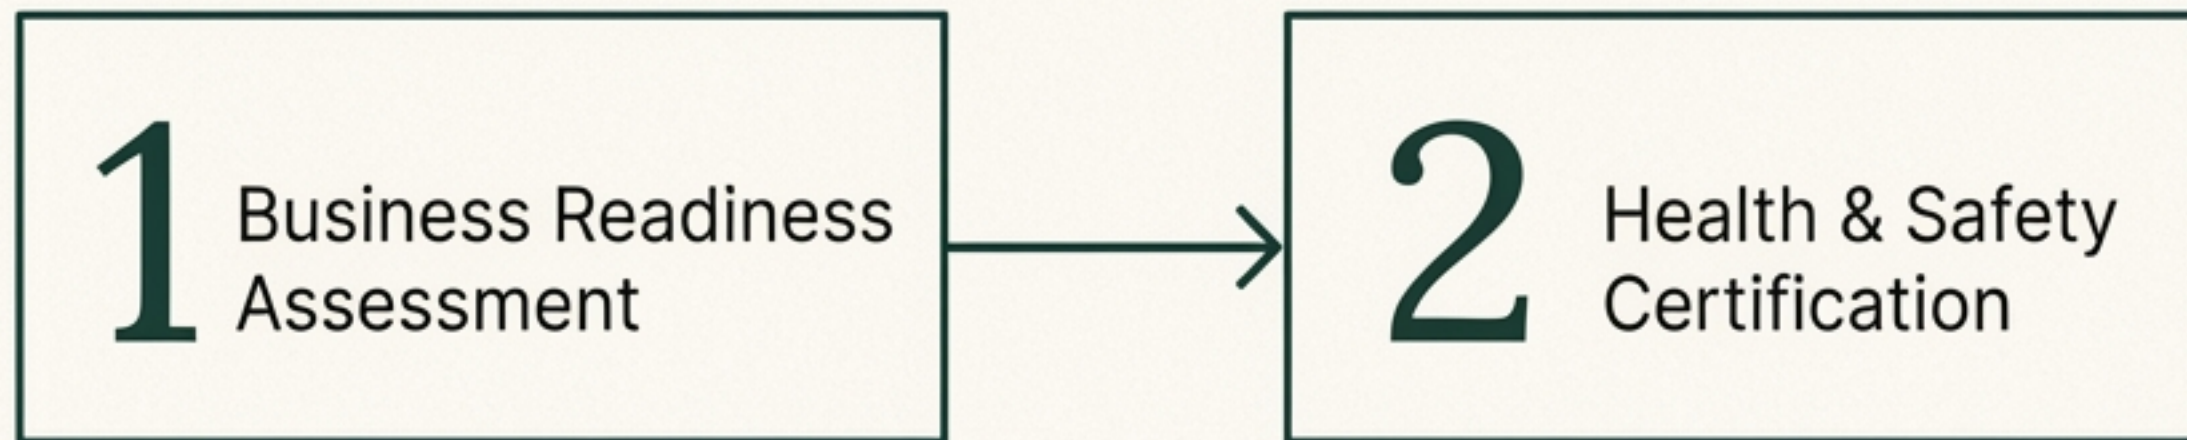

Under Government Regulation PP 28/2025, the 'Pondok Wisata' category is explicitly approved for 100% foreign ownership through a Foreign Direct Investment company, known as a **PMA (Penanaman Modal Asing)**.

This policy creates a direct and secure pathway for international entrepreneurs to establish, own, and operate authentic hospitality businesses in Indonesia.

The Path to Operation: Two Core Obligations

The 'Low Risk' designation is supported by a streamlined and transparent compliance process. To secure a license, a "Pondok Wisata" business must fulfill two primary obligations. These requirements are designed to ensure operational readiness and guest safety.

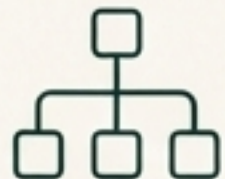

Obligation 1: The Business Readiness Self-Assessment

You must prepare and possess a formal self-assessment document. This document verifies that your business is prepared to meet the established standards for a 'Pondok Wisata'.

The assessment must cover five key operational pillars:

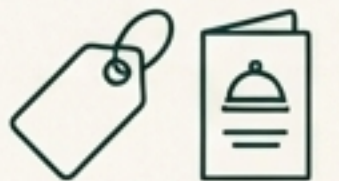

Sarana: **Facilities & Infrastructure**

Struktur Organisasi & SDM: **Organization & Human Resources**

Pelayanan: **Guest Services**

Produk Usaha: **Business Products & Offerings**

Sistem Manajemen Usaha: **Business Management Systems**

Obligation 2: The Health-Worthiness Certificate

It is mandatory to obtain a '**Sertifikat Laik Sehat**' (Health-Worthiness Certificate).

Purpose

This certificate is issued by local health authorities and serves as official validation that the property meets the required hygiene and sanitation standards for public accommodation. This is a critical component for ensuring guest trust and safety.

Who Issues the Final License?

The authority responsible for issuing the 'Pondok Wisata' license depends on the investment structure.

For All Domestic Ventures

Authority: The Regent (Bupati) or Mayor (Walikota) of the local jurisdiction where the business is located.

For Foreign Investment (PMA) Ventures

Authority: The relevant Minister or the Head of the Investment Coordinating Board (BKPM).

Your Journey from Concept to Operation

1

Define the Concept

An owner-occupied residence offering guests a unique, interactive cultural experience.

2

Confirm the Opportunity

A low-risk venture, open to all scales and 100% foreign ownership (PMA).

3

Fulfill the Obligations

Prepare the 5-pillar Self-Assessment document and secure the Health-Worthiness Certificate.

4

Apply to the Authority

Submit the application to the appropriate licensing body (Local Government for domestic, Central Government/BKPM for PMA).

Key Terminology & Official Source

Glossary

KBLI: Klasifikasi Baku Lapangan Usaha Indonesia. The official Indonesian Standard Business Field Classification system.

Pondok Wisata: Literally “tourism cottage” or “homestay.” Refers to the specific business model described (KBLI 55130).

PMA: Penanaman Modal Asing. The legal framework for Foreign Direct Investment in Indonesia.

PP: Peraturan Pemerintah. Government Regulation.
