

Unlocking Indonesia's Tourism Frontier

A Strategic Guide to KBLI 55192: Campgrounds & Caravan Parks

Based on Indonesian Regulation PP 28/2025. For informational and strategic planning purposes.

Defining the Investment: The Scope of KBLI 55192

KBLI Code	55192
Official Title	Bumi Perkemahan, Persinggahan Karavan dan Taman Karavan
English Translation	Campgrounds, Caravan Halts, and Caravan Parks
Sector	Tourism (Pariwisata)

This business category covers the provision of open-air accommodation using tents or caravans, including facilities for guest-owned caravans. This regulation provides a clear framework for investment in a growing travel segment.

e.g., Bumi Perkemahan Cibubur

e.g., Persinggahan Karavan Taman Safari

KBLI (Klasifikasi Baku Lapangan Usaha Indonesia) is the official Indonesian Standard Industrial Classification used to classify economic activities.

The Regulatory Dashboard: A High-Level Overview

Risk Level

Low (Rendah)

Signifies simplified requirements and a streamlined process.

Foreign Ownership (PMA)

100% Allowed

Full foreign ownership is permitted, offering maximum control.

Permitted Scale

All Scales

Suitable for Micro, Small, Medium, and Large enterprises.

Licensing Feature

Automatic Approval

Features a unique 'Fiktif Positif' mechanism (more detail to follow).

A Low-Barrier Entry: The 'Low Risk' Advantage

KBLI 55192 is officially classified as a Low Risk (Risiko Rendah) activity.

- Simplified Licensing: Typically requires only a Business Identification Number (NIB) to start operations, minimizing bureaucratic hurdles.
- Reduced Compliance Burden: Fewer ongoing reporting and certification requirements compared to medium or high-risk sectors.
- Faster Time-to-Market: The streamlined process allows for quicker operational launch, accelerating the path to revenue.

Open for Global Investment:
100% Foreign Ownership

100% MAXIMUM FOREIGN OWNERSHIP (PMA)

Under regulation PP 28/2025, this sector is fully open to foreign direct investment. International investors can establish and own 100% of the business entity.

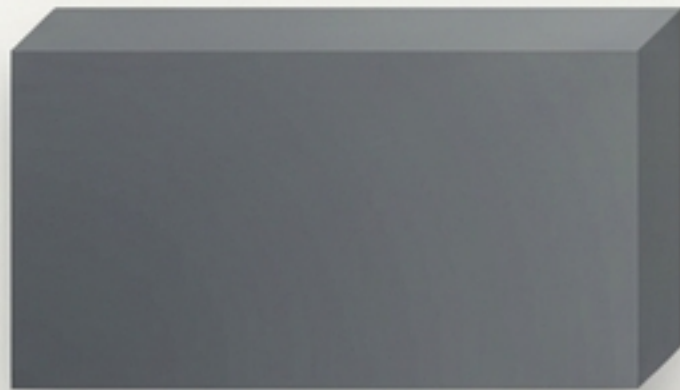

- ★ **Full Strategic Control:** Make autonomous decisions on operations, branding, and expansion.
- ★ **Unrestricted Profit Repatriation:** Capitalize fully on the success of your investment.
- ★ **Direct Market Access:** Engage directly with Indonesia's booming domestic and international tourism markets.

PMA (Penanaman Modal Asing) refers to a foreign-owned limited liability company in Indonesia.

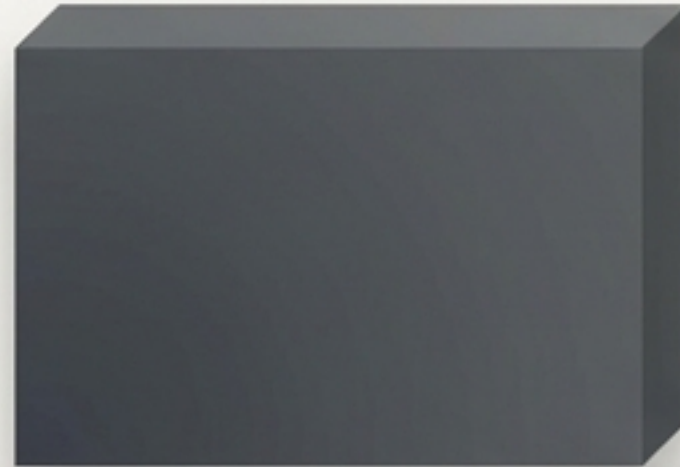

Scalable by Design: From Boutique Camps to Large-Scale Parks

This license is applicable across all official business scales, providing exceptional flexibility for your entry and growth strategy.

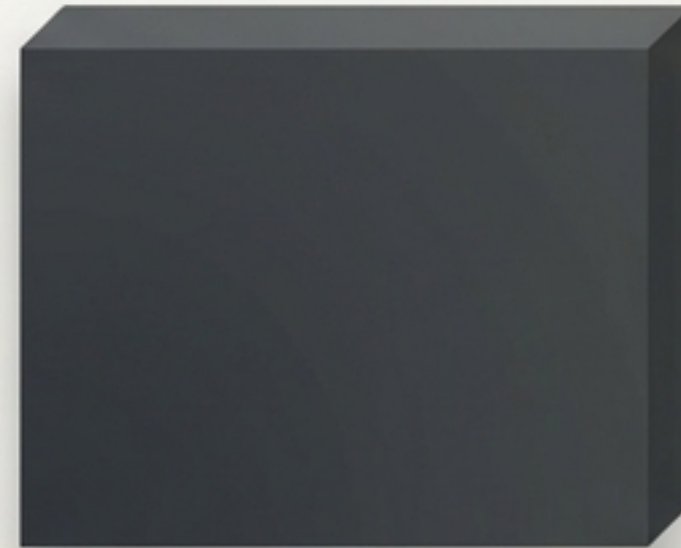

Mikro (Micro)

Ideal for small, owner-operated sites and boutique concepts.

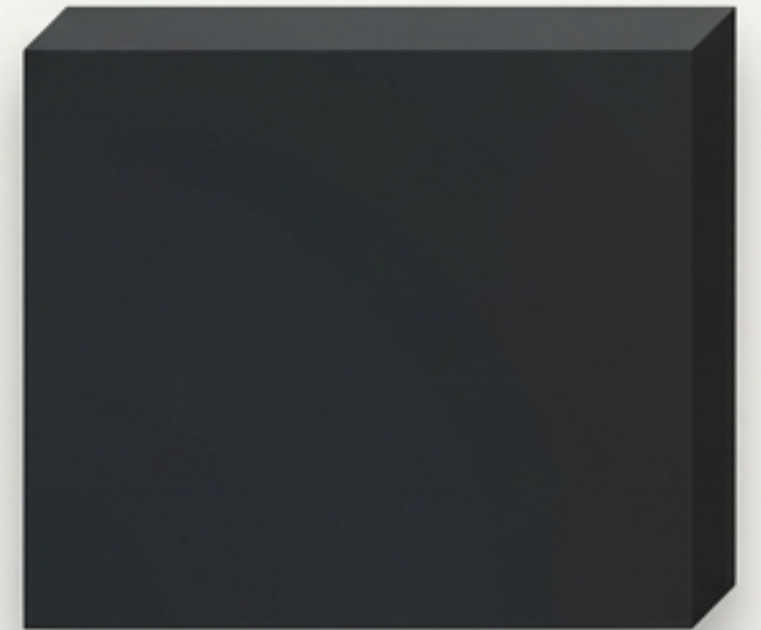

Kecil (Small)

Allows for gradual expansion and hiring a small team.

Menengah (Medium)

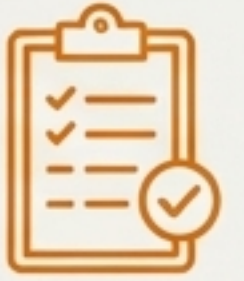

Suitable for established operators with multiple locations or larger facilities.

Besar (Large)

Accommodates large-scale, destination caravan parks and resorts with extensive amenities.

Your Core Obligations: Clear and Manageable Compliance

Periodic Reporting

Menyampaikan laporan kegiatan secara berkala

Standard operational reporting to the relevant authorities, ensuring transparency and good standing

Health & Safety Certification

Memiliki Sertifikat laik sehat

A one-time or periodically renewed certificate ensuring the site meets public health and safety standards.

These two core requirements form the basis of compliance, ensuring a focus on operational excellence rather than complex paperwork.

Navigating Approvals: The Licensing Authorities

Foreign-Owned Entities (PMA)

Minister / Head of Central Agency

Initial licensing and oversight for foreign investments are handled at the central government level, ensuring a standardized national process.

All Entities

Regent / Mayor (Bupati/Walikota)

Local government authorities are responsible for implementation and oversight, aligning the business with regional planning and standards.

The Decisive Advantage: The Power of Automatic Approval

This KBLI is one of only 258 classifications in Indonesia subject to the "Fiktif Positif" mechanism.

What this means: If the relevant government authority does not issue a response or rejection within the officially mandated Service Level Agreement (SLA) timeline, the license is **legally considered automatically approved**.

Key Investor Benefit: This mechanism provides a powerful hedge against bureaucratic delays and creates a clear, predictable timeline for licensing.

Fiktif Positif (Positive Fictitious) is a legal principle in Indonesian administrative law that grants approval by default after a specified period of inaction by the government.

The Opportunity at a Glance: KBLI 55192

Business Definition: Campgrounds, Caravan Halts, and Caravan Parks.

KBLI Code: 55192

Risk Level: **Low** (Simplified process)

Foreign Ownership (PMA): **100% Allowed** (Full control)

Business Scale: Micro, Small, Medium, Large (Maximum flexibility)

Core Obligations: Periodic Reporting & Health Certificate (Manageable compliance)

Key Advantage: **Fiktifiktif Positif** (Automatic approval mechanism protects against delays)

KBLI 55192 represents a rare combination of high potential in Indonesia's tourism sector with a low-risk, highly favorable, and uniquely streamlined regulatory framework for foreign and domestic investors.
