

Navigating the KBLI 2025 Transformation

Strategic Implications for Bali's Digital Economy & Investment Landscape

A BUSINESS STRATEGIST'S GUIDE TO COMPLIANCE & GROWTH

Inter
Based on Peraturan BPS No. 7 Tahun
2025 & PP No. 28 Tahun 2025

The Metamorphosis: From Generalist to Granular

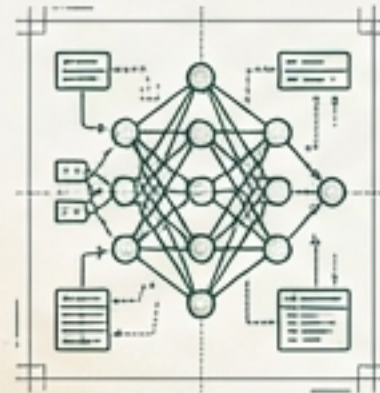

Why Specificity is the New Standard for Tax & Compliance

2020 Era: The Generalist

General Consulting
(Grey Area)

2025 Era: The Specialist

AI Development

Machine Learning Models,
Data Science Services,
KBLI 62019

IoT Design

Smart Devices,
Connected Ecosystems,
KBLI 71120

Market Research

Consumer Analytics,
Trend Forecasting,
KBLI 73201

**87% Direct Match /
13% Critical Splits**

The 13% variance represents high-growth sectors:
Tech, Hospitality, and Creative Services.

Strategist Note:

Insider Tip: Generic 'Management Consulting' PT PMAs are now red flags for audit. Specific activities require specific codes.

The Risk Matrix: How KBLI Determines Your License

Based on Lampiran PP No. 28 Tahun 2025 Risk Levels.

Crucial Insight:

Moving from 'Low' to 'Medium-High' triggers a physical government audit of your premises.

The Accommodation Matrix: Commercial vs. Residential

Code	Classification	Definition	Risk Level
55193	VILLA	Commercial complex managed by owner. Rented to tourists.	Medium-Low (Menengah Rendah)
55203	AKTIVITAS VILA	Private home rented to tourists.	Medium-Low
55201	HOMESTAY	Owner lives on-site. Daily rentals.	Low (Rendah)
55204	APARTEL	Apartments managed as hotel inventory.	Medium-High

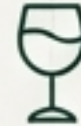

Must match
Tourism
Zoning (ITR).

F&B & Entertainment: Beyond the *Warung*

56101: Restoran

56301: Bar

93291: Nightclub / Disco

Dining
(Low Risk)

56101: Restoran
Food focus.
Standard compliance.

56301: Bar
Alcohol focus
(Beer/Wine/Spirits).

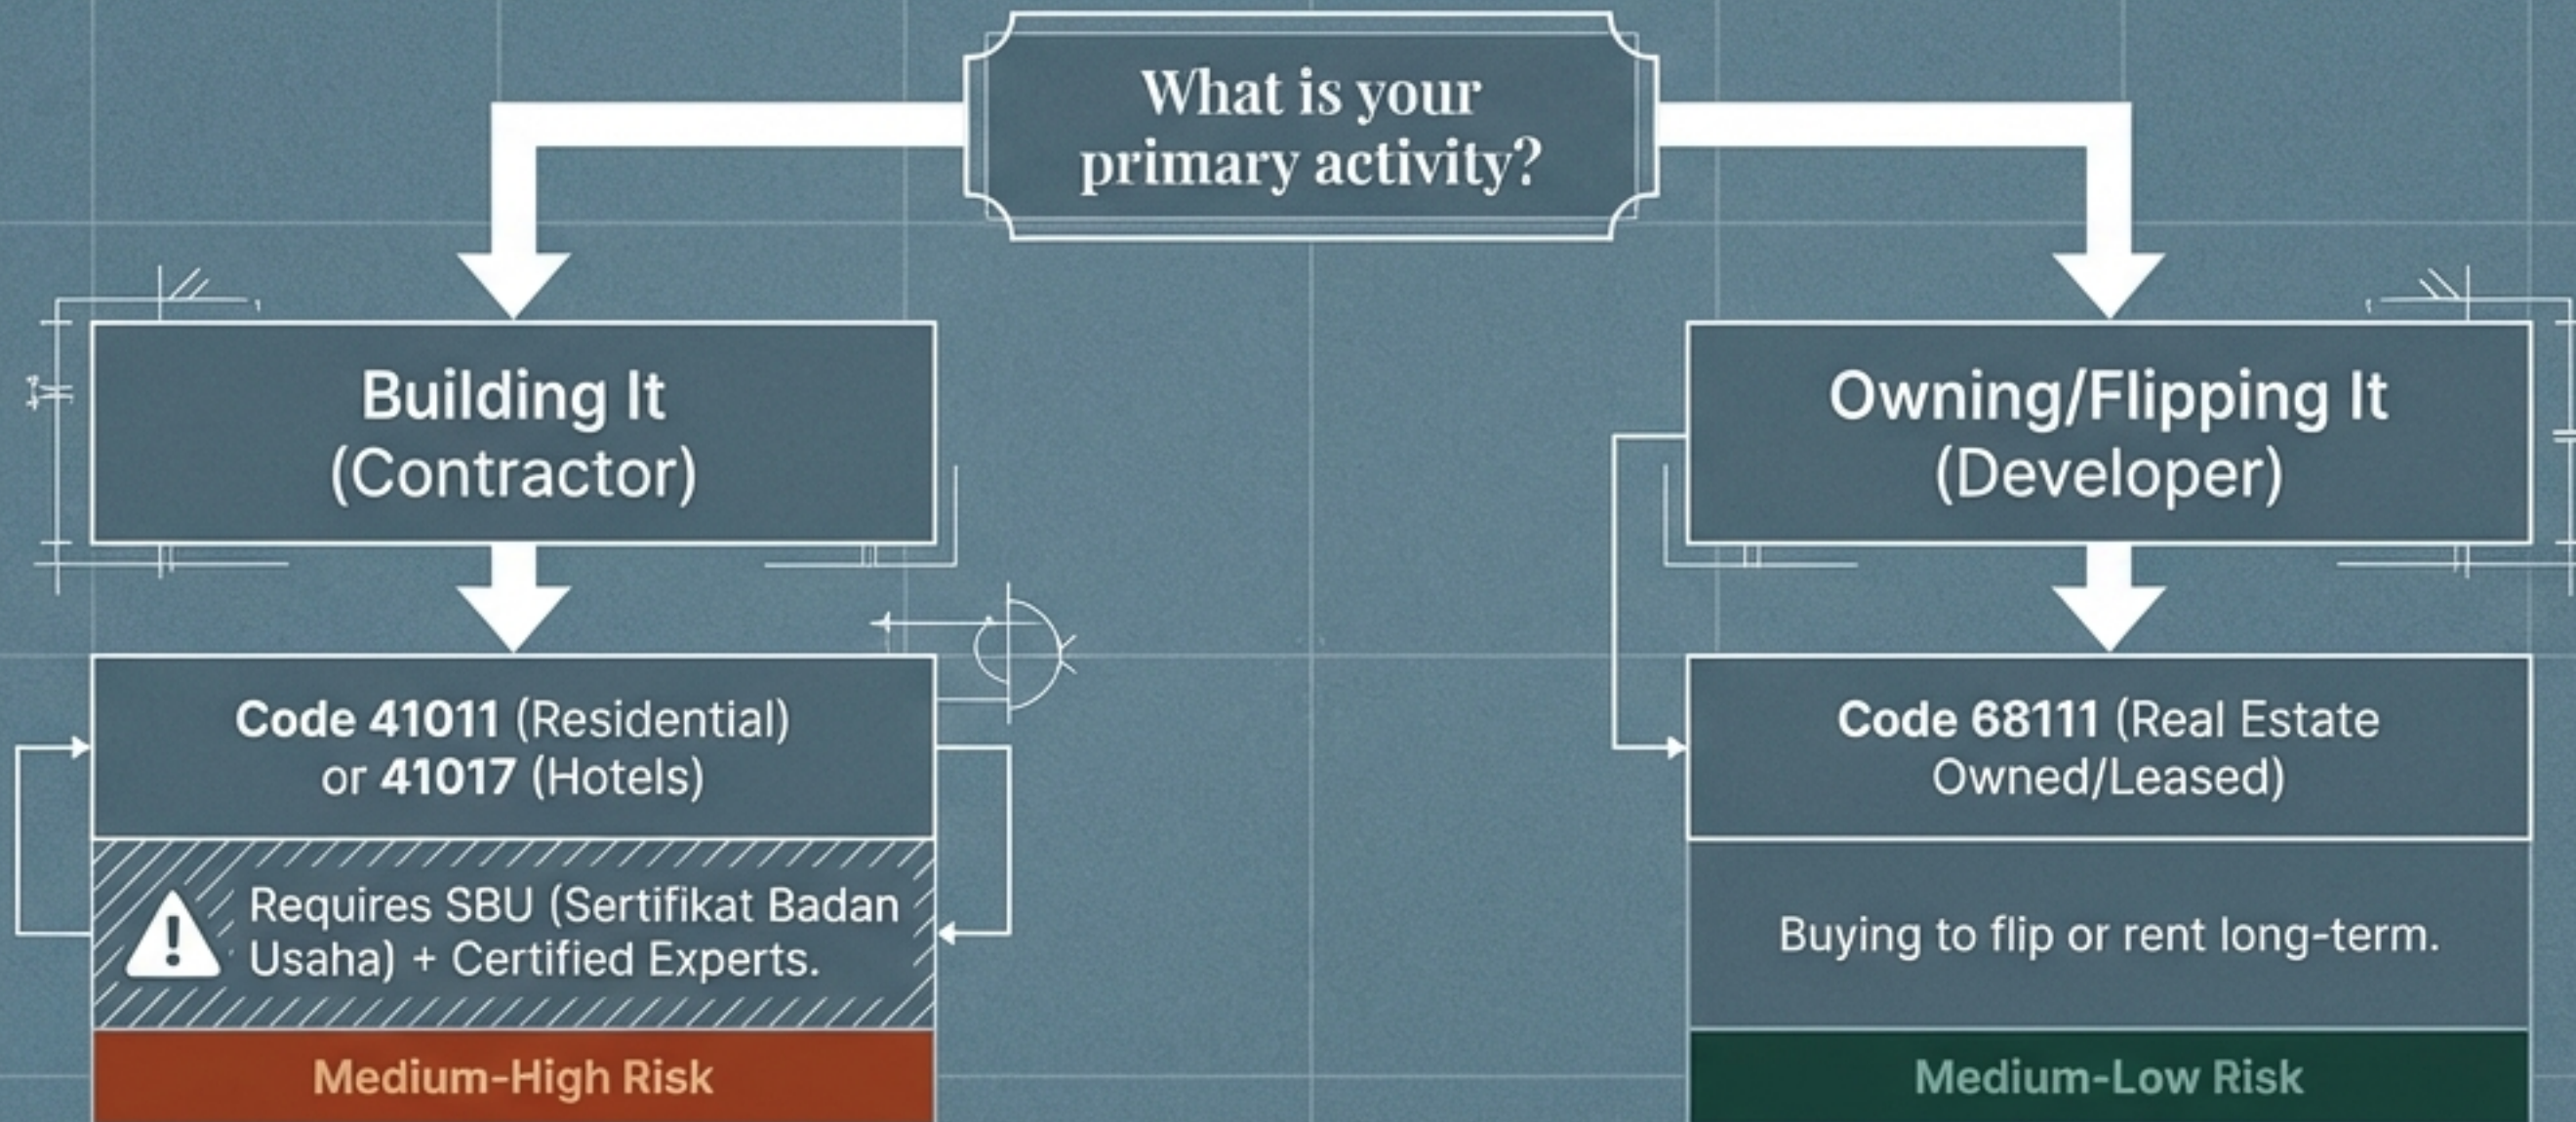

93291: Nightclub / Disco
High Risk (Tinggi).
Specific capital & safety rules.

Nightlife
(High Risk)

Compliance Trap

The Beach Club Trap: If you serve food + alcohol + have a DJ + sell merch, you need a 'Stacked License' covering 3 separate KBLI codes. Each code may trigger independent capital requirements.

Construction & Development: The Regulatory Boom

Warning: Do not mix Contractor and Developer codes in one PMA unless you have significant capital (10bn IDR per sector).

The Platform Economy: Separating Agency from Asset

KBLI 2025 creates a firewall. If you manage bookings but don't own the villa, you are a Tech/Service company (55400), not a Hospitality company.

NEW CODE: 55400
(Aktivitas Jasa Intermediasi Akomodasi)

Guest

Digital Platform

Intermediary services connecting
clients and providers via digital platforms.
Commission-based model.

Asset Owner

Code 55193
(Villa Owner)

Logistics & The Gig Economy

The App

Code: 53301 - Platform Digital Pengiriman Makanan

Description: Operating the digital platform for food ordering.

The Courier

Code: 5320 - Courier Activities

Description: The physical act of delivery.

The Transport

Code: 492 - Land Transport

Description: Passenger transport services.

Insider Tip Box

The Delivery Fee Trap: If a restaurant charges a specific 'Delivery Fee' on the receipt, it triggers a Logistics License requirement. Bundle the cost to remain pure F&B.

Digital Nomad Services: Co-Living & EdTech

The Co-Living Win

55902 (Communal Living / Co-living)

Explicit recognition of the co-living model. Moves the sector out of the 'Boarding House' (Kos-kosan) grey area.

The Bootcamp Boom

85582 (Corporate Training - IT)

For coding bootcamps and tech workshops.

Strategist Note: Don't rely solely on Real Estate rental codes if you provide desks, internet, and coffee. Stack 'Business Support Services' for full compliance.

The Technological Frontier: AI & IoT

Valuation-Ready Codes for Startups

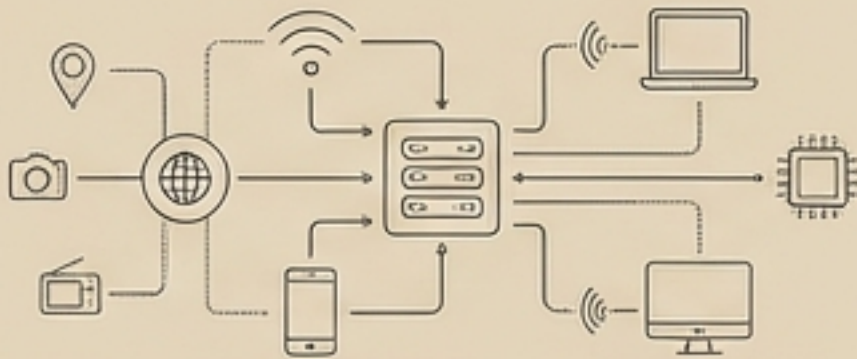

Internet of Things (IoT)

Code: 62024 - Aktivitas Konsultasi dan Perancangan IoT

Requirement: Self-declare for expert staff according to SKKNI standards.

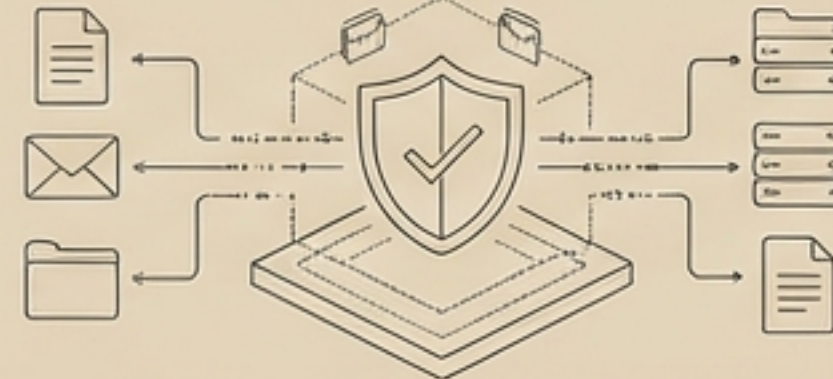

Risk: Medium-Low (Menengah Rendah)

Cyber Security

Code: 62201 - Aktivitas Konsultasi Keamanan Siber

Context: Critical for Fintech and Enterprise SaaS.

VC Insight

"General Software Development" is too vague for 2025 valuations. Use these specific codes to prove your tech specialization.

Web3, Blockchain & Digital Assets

Development & Protocol

 **6201**
(Computer Programming)

 **62202 (Digital Identity
Management/Web3)**

Building the tech. Generally **100%
Foreign Ownership allowed.**

Exchange & Finance

 **6619**
(Other Financial Support)

Custody, Trading, Exchange.
Requires OJK/Bappebti License.

Warning

Do not operate a Crypto Exchange under a Software Development license. PP 28/2025 grants authorities easier tracking to shut down non-compliant shadow exchanges.

The Creative Economy Structure

The Creator

Code: 591 - Motion Picture/Video Production

For YouTubers and Production Teams.

The Promoter

Code: 7310 - Advertising

For Influencers receiving brand deals.

The Merchant

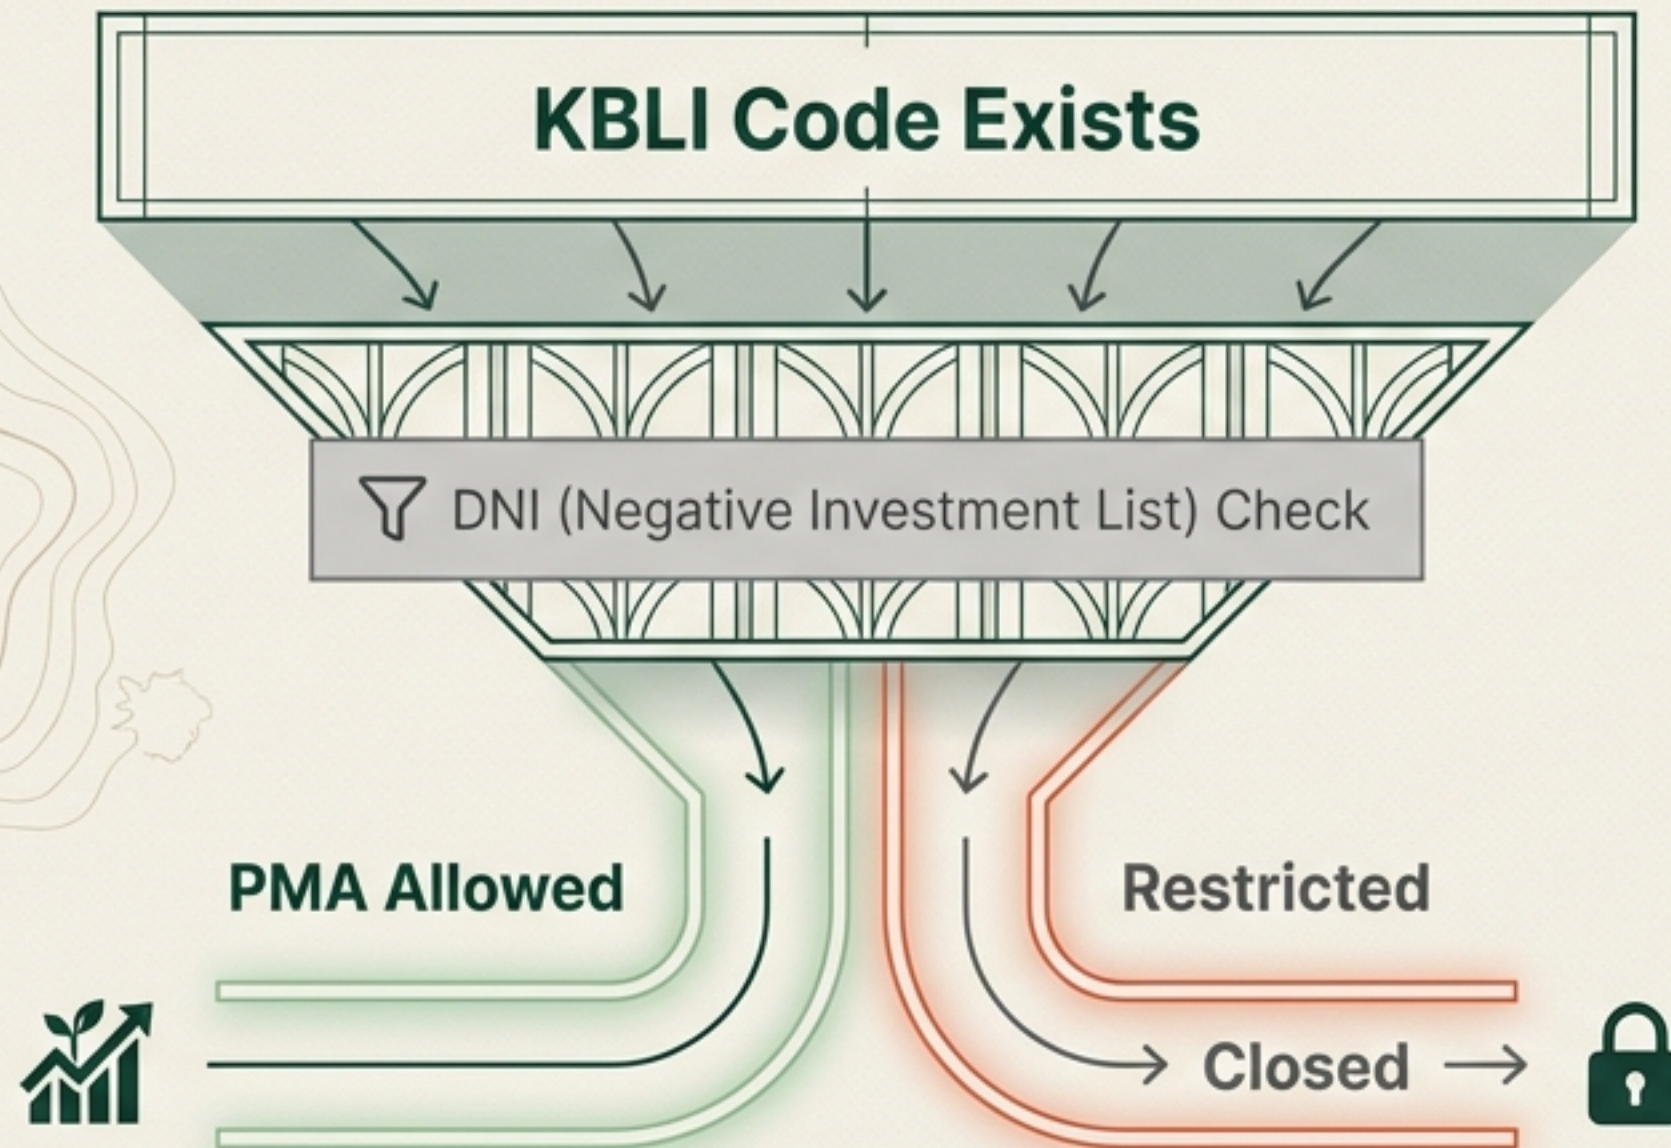

Code: 47xxx - Retail Trade

For selling merchandise.

Strategic Insight

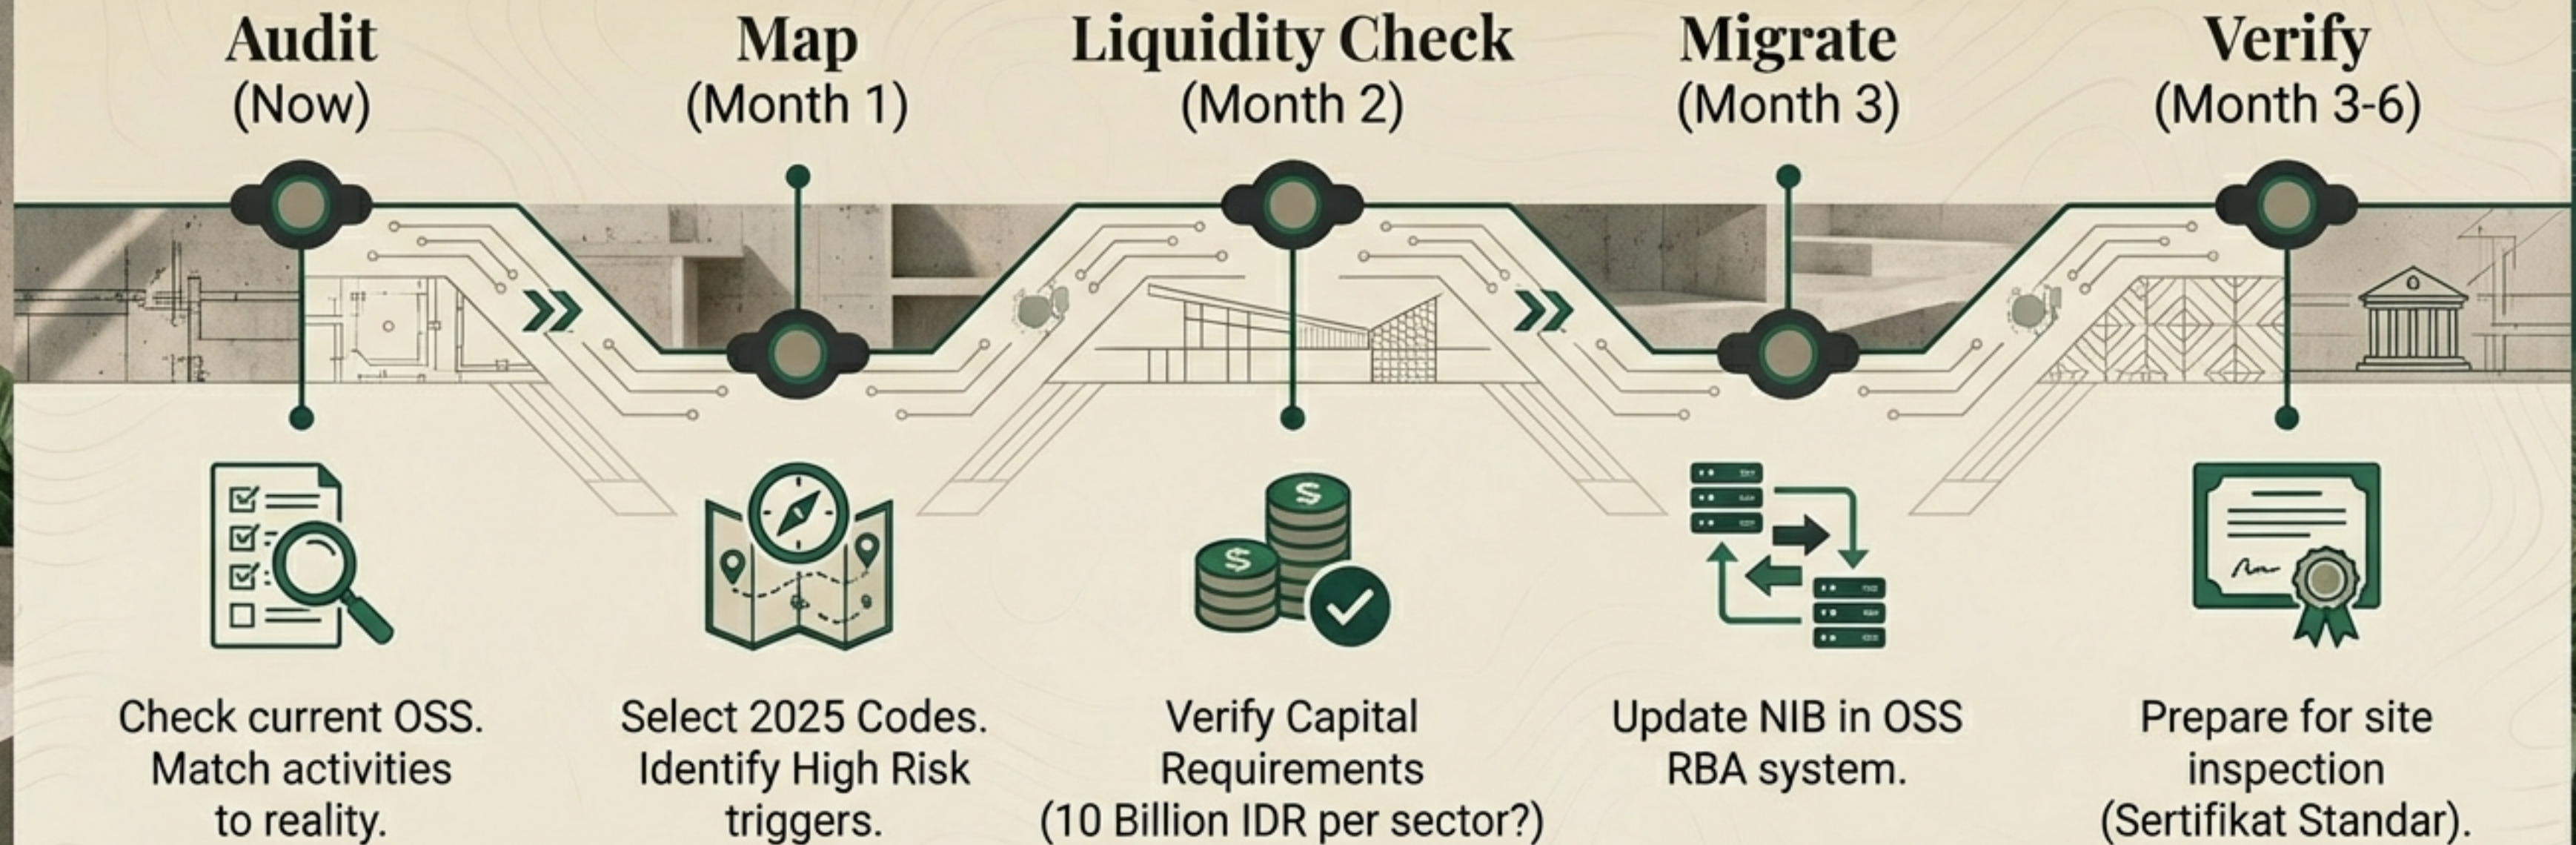

Be careful mixing these. 'Advertising' is a Service. 'Retail' is Trade. They have different Foreign Ownership (PMA) capital requirements.

Foreign Ownership (PMA) & The Negative List

- ✓ **Open (Terbuka):** Tech, Management Consulting, High-end Hotels.
→ 100% Foreign Ownership Generally Allowed.
- ⚠ **Restricted (Terbatas):** Sea Fishing (03110) - Max 30% Foreign Ownership or Partnership Required.
- ✗ **Closed (Tertutup):** Certain heritage or defense sectors.
→ 0% Foreign Ownership.

Strategic Roadmap: Migration & Compliance

A clear, sequential approach to ensuring full regulatory compliance and operational stability.

Compliance is Your Competitive Advantage

- Specificity lowers audit ambiguity.
- Correct Risk Levels prevent surprise shutdowns.
- Proper KBLI coding increases startup valuation.

“In the new regulatory era, a ‘Clean’ OSS is the cheapest insurance policy for your Bali Bali business.”
